**Pan-Tilt Motor
with
Quick Release
Platform**

**Command
Center**

**LCD Monitor
Pan-Tilt and
Camera
Controller**

**HAWKEYE all in one tower
module. Up in seconds without
knobs, pulleys, ropes or cranks.
Light and strong aircraft
aluminum - no steel to rust.**

The Hawkeye End Zone camera is the system that has evolved along with the industry exclusive Raven. Based on all the high quality standards and proven performance record of U.S. Sports Video's full line of End Zone Systems, the Hawkeye presents the safest, most stable, small motor telescoping tower on the market, and at a price for your budget.

**Over 23 years of
evolution with the
Raven Tower System**

**Heavy duty telescoping
tower mast with auto-load
safety locking pins**

**Simple set up with no
cranks, knobs, levers cam-
locks, pulleys, or ropes**

**Exclusive sturdy 3" lower
mast and 2" upper mast**

**Safe and strong
channel aluminum leg
construction**

**Wide footprint over 9' base,
wind tested at over 50 mph
- no guy wires needed.**

**Operated from standing or
seated position**

**Command Control Center
LCD action monitor, pan-tilt
and custom camera control**

**Multi-channel camera
controller - remote on/off,
record/pause, dual variable
speed zoom, focus, playback.**
