***Use on Field, Sideline
or End Zone for Games,
and Coachable Skills.***

The new SideWinder-XL was introduced at the 2013 AFCA in Nashville. Darrell Hazell had found the SideWinder so effective at Kent State that it was one of his first acquisitions for his new program at Purdue. After seeing Auburn's SideWinder at the 2010 National Championship game in Arizona, Chip Kelly added two Sidewinders to his program at Oregon and has already added the SideWinder-XL to his program at the Philadelphia Eagles.

"The SideWinder is professionally made. It provides the perfect height and viewing angle for all purposes." **Joe Harrington** - Video Coordinator, University of Tennessee
